Claims 84 and 85 have been cancelled.

The following is an examiner's statement of reasons for allowance: Upon further review, the disclosure of the Burdoff et al reference fails to show that the user can actually define an association between a medical function and the specific manner in which the actuating element is actuated as set forth at page 17, lines 11-16 of applicant's specification. In Burdoff et al, the association is predefined for the user.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
